PROFESSIONAL PROFILE

Strategic Senior Business Analyst with 8 years' experience bridging the gap between business needs and technology solutions. Skilled in requirements elicitation, process mapping, data analysis, and change management. BCS-certified with deep expertise in financial services and healthcare sectors.

WORK EXPERIENCE

Senior Business Analyst — MedTech Solutions Ireland

Feb 2020 – Present

- Gathered and documented requirements for a patient data management system serving 15 hospitals across Ireland.
- Facilitated 40+ stakeholder workshops, translating complex clinical workflows into detailed functional specifications.
- Produced AS-IS and TO-BE process maps using BPMN, reducing manual processing time by 35%.
- Managed UAT cycles, coordinating 120 test cases with clinical and IT teams.

Business Analyst — AIB – Allied Irish Banks

May 2016 – Jan 2020

- Supported digital banking transformation including mobile app redesign with 500k+ users.
- Authored business cases, BRDs, and functional specs for regulatory compliance projects (GDPR, PSD2).
- Collaborated with Agile squads in a SAFe framework to prioritise and refine product backlogs.

Junior Business Analyst — Accenture Ireland

Sep 2014 – Apr 2016

- Conducted gap analyses and market research for public-sector digital transformation bids.
- Built Tableau dashboards to track KPIs for a national healthcare IT programme.
